

SMART Board Cabling Guide

1. SMART Board USB Extension Cable:

- 15' USB-XT: F > F
- Allows longer distance between computer and SMART Board

2. Projector Extension Cable without sound:

- 25' SVGA Multimedia Cable: M > M
- Allows longer distance between computer and projector; sound goes through external speakers

3. Projector Extension Cable with Sound:

- 25' SVGA Multimedia Cable: M > M with Stereo Mini Plug Audio
- Allows longer distance between computer and projector, sound goes through projector

4. Monitor Extension Cable:

- 10' or 25' SVGA: M > F
- Allows longer distance between computer monitor and projector which will display video on both monitor and projector screen (do not need this cable with laptops.)
